VitaTek

MANUFACTURING

Precision medical device manufacturing and final assembly.

Common Medical Device Manufacturing Problems

PROBLEMS

- No communication of the project's next steps
- No communication of delays
- No communication of timelines
- No understanding of production issues
- No cleanroom access
- No clarification of cost creep
- No on-site office space availability
- Delays with training new project managers

OUR SOLUTION

One dedicated project engineer from Phase 0 to Phase 5, weekly timeline updates, and reduced cost creep by controlling the entire process in-house.

Our Services Inclusions

- ✓ Multi-axis CNC machining
- ✓ Vertical molding
- ✓ Injection molding
- ✓ Finishing operations
- ✓ Precision cleaning and finishing
- ✓ Clean room and final assembly

Why Choose Us

VitaTek's unique Everything In-House model offers medical device innovators a better way to bring their product to market, faster.

- ✓ Expert In-House teams for every phase of development
- ✓ Clearly defined development roadmap and budget
- ✓ Weekly meetings to keep projects on track
